National Military Service completed – 2023
(certificate available upon request)

Technical Skills

Python, C / C++, Java, JavaScript /
HTML / CSS, SQL, Assembly (LC-3 /
Irvine32), MATLAB, Linux / BASH

Tools & Technologies:

Cisco PT, Wireshark, Linux, VM, Apache
Tomcat, Git, POSIX, Burp Suite, Nuclei,
LogRhythm, Trellix HX, FortiSOAR,
GoPhish, CAINE, VirusTotal, Velociraptor,
Kiwi, Metasploit, Nmap, Mimikatz

Certifications

Google Cyber Security Certification

Immersive Labs (TDRA Licensed)

One Million Prompters

Summary

AUS student pursuing Computer Science. Recently completed an internship program at TDRA and gained practical exposure to cybersecurity operations. Seeking to apply these skills to an entry-level cybersecurity role.

Experience

aeCERT Intern – TDRA

Deira, Dubai

Jun. 2026 – Aug. 2026

[Certificate](#)

- Completed hands-on offensive and defensive cybersecurity labs on the **Immersive Labs** platform (AI security, wiper resilience, cyber readiness) and simulated a full attack chain on **CVE-2021-26855 (ProxyLogon)** in a live cyberdrill: recon with **Nmap**, exploitation via **Metasploit**, credential extraction with **Mimikatz**, and lateral movement via pass-the-hash to admin access.
- Worked across **SOC**, **IR**, and **SQS** operations: SIEM log analysis with **LogRhythm**, **EDR** via **Trellix HX**, and automated incident response using **FortiSOAR** playbooks.
- Conducted web application penetration testing with **Burp Suite**, **Nuclei**, **OWASP ZAP**, and **DirBuster** using **OWASP Top 10** methodology; built a phishing simulation via **GoPhish**.
- Performed digital forensics work, including disk imaging with **CAINE**, artifact hunting with **THOR & Velociraptor**, and IP/URL scanning via **VirusTotal** and **AbuseIPDB**.
- Delivered a capstone presentation on the internship to a judge panel, covering organizational structure, cybersecurity operations, and personal development, placed **top 3** among all interns.

Volunteer – COVID-19 Vaccination Center

One Central, Day for Dubai – WTC, Dubai

June 2021 – Aug. 2021

[Certificate](#)

- Completed over **120 hours** of volunteer work at the One Central mass vaccination center, built in 72 hours at Dubai World Trade Centre, supporting a facility capable of administering up to **4,000 doses** per day.

Academic Qualifications

American University of Sharjah

Bachelor of Science in Computer Science (2 remaining semesters – Expected Spring 2027)

Sep. 2023 – Present

Data Structures & Algorithms, AI, Networking, Web Applications, Computer Architecture, Operating Systems.

Al Mawakeb Al Garhoud

International School Diploma (95.38%)

Aug. 2007 – Jun 2022

Highest Distinction Award, Head of MFNC, Robotics, Science & Emirati Club

[Diploma](#)

Projects

Sky Sentry

Raspberry Pi, Python, SDR, OpenCV

Jan. 2026

[Github](#)

- Counter-drone system combining computer vision & RF analysis for real-time detection, powered by **YOLOv8** (97.4 mAP on 7,000 images).
- Built real-time monitoring interface with live video, RF dashboard, incident logging.

Smart Home Web Application

Java, MySQL, HTML, CSS, JavaScript, Bootstrap

Sept. 2025

[Github](#)

- Full-stack smart home app for device control, scheduling, and energy monitoring; auth via Java Servlets & Servlet-DAO pattern.
