

MUHAMMAD AHMED RAZA

Sharjah, United Arab Emirates | +971 50 742 3816 | ahmed.raza.cs@gmail.com
linkedin.com/in/muhammad-ahmed-raza | github.com/ahmedraza-dev

PROFILE

Computer Science student at the American University of Sharjah with hands-on experience in software development, web applications, machine learning, and data analysis. Strong interest in building practical technology solutions and developing clean, user-focused applications. Comfortable working independently and in collaborative project teams.

EDUCATION

American University of Sharjah (AUS)

Bachelor of Science in Computer Science | Expected May 2027 | Sharjah, UAE

Relevant Coursework: Data Structures & Algorithms, Programming II, Computer Systems, Web Application Development, Introduction to AI & Data Science, Discrete Mathematics, Linear Algebra

TECHNICAL SKILLS

Programming	C++, Python, Java, JavaScript, MATLAB, SQL
Web	HTML, CSS, Bootstrap, Leaflet.js, Java Servlets
Data & AI	Pandas, NumPy, Scikit-learn, regression, data preprocessing, visualization
Tools	Git, GitHub, VS Code, Google Colab, MySQL, MATLAB
Creative	Final Cut Pro, Adobe After Effects, motion graphics, video editing

PROJECTS

SafePath — Hazard Reporting & Route Planning Web Application

University Software Development Project | 2025

- Built a web application that allows users to report hazards and plan safer routes.
- Implemented interactive maps with Leaflet.js and developed backend functionality using Java Servlets, DAO architecture, sessions, and MySQL.
- Created dashboard, reporting, route-planning, and user-profile functionality with a focus on usability.

Customer Lifetime Value Prediction

Machine Learning & Data Science Project | 2025

- Analyzed a 6,800+ record insurance customer dataset and performed statistical analysis, preprocessing, normalization, and visualization.
- Developed and compared Linear Regression, SVM, and Neural Network models using Python and Scikit-learn.
- Evaluated model performance using MSE and R² across multiple train/test splits.

AUS Campus Connect

Web Development Project | 2024

- Designed a responsive university information website using HTML, CSS, JavaScript, and Bootstrap.
- Developed organized navigation and reusable interface components for a student-focused user experience.

EXPERIENCE

Freelance Video Editor

Independent / Remote | January 2023 – Present

- Produced short-form and long-form content for online creators, combining editing, motion graphics, captions, sound design, and visual effects.
- Worked with large 4K/6K footage libraries, proxy workflows, multicam footage, and mixed camera formats.
- Managed multiple projects simultaneously while meeting tight delivery schedules and maintaining consistent visual quality.

ACTIVITIES & INTERESTS

Technology & AI • Software Development • Data Science • Video Production • Motion Graphics • Gaming • Digital Media

ADDITIONAL INFORMATION

Languages: English (Fluent), Urdu (Fluent), Arabic (Basic)

Citizenship: Pakistani

Availability: Summer internships and part-time technical opportunities
